

## CAN-CAN RELAYS

- Divide the students into 10 groups. Each group is assigned to a hoop. Place the soda cans at the opposite end of the gym in small wading pools. On the signal the first person from each group runs out and grabs one can, places it in their hoop and gives a high five to the next person. This continues until a team is successful in collecting the designated cans for each round.
- Ideas for each round might include:
  - Set number of cans, any kind.
  - Assign each group a specific kind of soda and

# CAN-CAN RELAYS

collect 15 cans.

- Select 3 kinds of soda and collect 12 cans total. Each can must be placed upside down in the hoop.
- Collect 15 different cans, place them in alphabetical order in your hoop.
